2 Auto Cup-making Machine

1 Biscuit Kiln-16MT/ Day (900°C)

1 Glost Kiln-12MT/ Day (1325°C)

3 Shuttle Kilns-6MT/Day (1250° to 1350°C)

3 Decoration Kilns-(850° to 1200°C)

3 Decal Printing Machines

1 Packaging Plant

Paragon Ceramic is equipped with the top-of-the-line Testing and Quality Control Laboratory facilities, own captive gas-based Power generation capacity, own water supply through Deep Tube well, and medical facilities. PCIL is one of the MOST ENVIRONMENT-FRIENDLY Tableware Plant in the Region. The Factory is set up on about 10 Acres of land and has a total covered area of more than 21,000 sqm.

### **Some of the Environmental control points are as follows.**

High efficiency production Machineries to reduce overall Energy usage.

Combined use of heat & power generation to reduce gas consumption.

Use of Solar Energy for up to 5 KW (Proposed).

Raw Materials used without Lead, Cadmium and Barium.

Conserve rainwater and use inside the Factory.

### **Utilities at Paragon Ceramic**

1.75 MW own Power Generation (2 Gas Based and 1 Diesel Based).  
240 Meters of Busbar Power Distribution.  
2600 Liters/Minute Water usage capacity from Deep Tubewell.  
Heat Recovery from GK and used in Dryers at the Plant to dry Green wares.  
17,500 cubic meter Gas used daily to run Biscuit, Glost, Decor Kilns and Generators.

### **Tableware Production Capacity:**

About 65,000 Pieces of world class Porcelain tableware is produced at PCL per day, which is about 22.8 Million Pcs production per year, combining body formulation, forming, glazing, firing, decal printing, decoration and packaging.

### **Porcelain Bodies: PCIL can make 5 Bodies:**

**Universal Porcelain** - Which is normal White Porcelain

**Pearl Collection** - Which is the Super White Porcelain

**Alumax** - Which is Alumina Porcelain with about 30% AL2O3.

**Ivory Silk** - Which is Fine China in Cream color.

**Recycled Porcelain** - Which is environment friendly.

The Company is capable of producing Mix n Match, which is any Colored Body and/or Colored Glaze, if the requirement is significant by the Customers.

### **Decal Plant and Design:**

PCIL is presently producing about 250,000 sheets per month, starting from single color upto 16 Colors including Gold/Platinum, both On-glaze and In-glaze, and completely Lead, Cadmium and Barium and other hazardous chemical free.

### **Packaging Plant:**

Paragon Ceramic is producing about assorted 1.6 to 1.8 million Pieces White and/or Brown Cartons (inner & master respectively) per month, with additional capability to supply 4 Color Printed Cartons.
